Programing 118

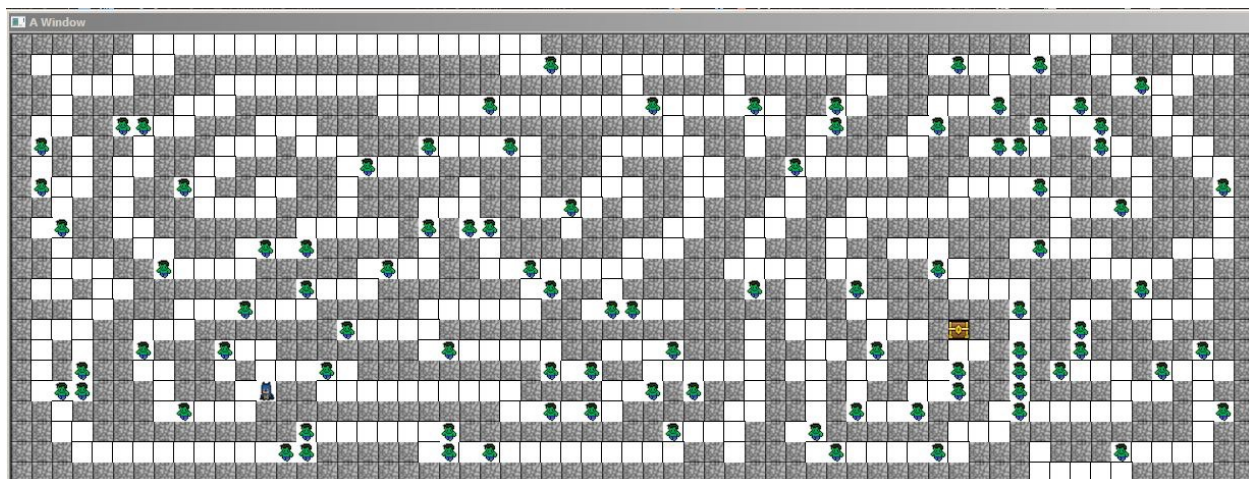

Lab 12

```
running...
Welcome to Batman vs. Hulk

Goal: Make it to the chest alive
Enemy: You had a fight with hulk and right now he is trying to kill you
- He has supper strenth... so he can slowly tear the maze appart
- Pro tip: he is also not that smart so unless he touches you your good
Instructions:
- You can use your arror keys to move around
- You can also use 'u' <up>, 'd' <down>, 'l' <left>, 'r' <right>
- To turn auto mode on press 'a'
- To turn auto mode off press 'm'
- To quit press 'x' or 'q'

Set up:
- If you downloaded a predefined maze, enter
  its name (else enter standard or n): n
- Input the number of enemies: 100

If you are a grader enter 'g', else enter any other letter to continue:
```
